Art Unit: 1649

Claims 1 to 19 are pending in the instant application.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1 to 4, drawn to an assay employing a TGR4 polypeptide, classified in class 435, subclass 7.21.
- II. Claims 5 to 7, 14 to 16, drawn to a method of treatment by administering a compound that modulates a TGR4 polypeptide, classified in class 424, subclass 142.
- III. Claims 8 to 11, drawn to an assay employing a TGR183 polypeptide, classified in class 435, subclass 7.21.
- IV. Claims 12, 13, 17 to 19, drawn to a method of treatment by administering a compound that modulates a TGR183 polypeptide, classified in class 424, subclass 142.

The inventions are distinct, each from the other because of the following reasons:

Inventions I to IV are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions have different modes of operation, different functions and different effects.

Because these inventions are distinct for the reasons given above and the searches required for TGR4, a TGR4 modulator, TGR183, and a TGR183 would not be coextensive because these are four different compounds that lack a common feature or

combination of features that distinguishes them as a group from the prior art, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

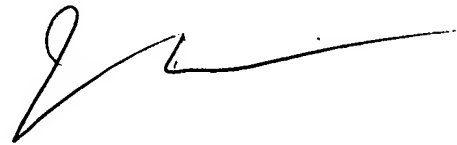

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
